**THE
WORLD
SPEAKS
IELTS.
YOU?**

The International English Language Testing System (IELTS) measures the language proficiency of people who want to study or work where English is used as a language of communication. It uses a nine-band scale to clearly identify levels of proficiency, from non-user (band score 1) through to expert (band score 9). A score is given for each test component - Listening, Reading, Writing and Speaking. These individual scores are then averaged and rounded to produce an overall band score.

IELTS at a glance

- the world's leading language test
- jointly owned by the British Council, IDP: IELTS Australia and Cambridge Assessment English
- evaluates ability in four language skills: listening, reading, writing and speaking
- available in two test formats: Academic (for test takers wishing to study at undergraduate or postgraduate levels, and for those seeking professional registration) or General Training (for test takers wishing to migrate to an English-speaking country and for those wishing to train or study at below degree level)
- accepted by more than 10,000 organisations worldwide, including higher education institutions, professional associations, and private employers
- results are valid for two years
